	Chapter 9: Interstate Compact on the Placement of Children (ICPC)	Effective Date: November 1, 2020
	Section 03: Initial Placement/PlacementChanges	Version: 3

STATEMENTS OF PURPOSE

The Indiana Department of Child Services (DCS) will require the DCS local office to notify the DCS Interstate Compact on the Placement of Children (ICPC) Unit in writing of:

1. Any changes in placement involving Indiana children placed in other states; and
2. All placement changes involving children from other states placed in Indiana.

Note: This policy also applies to changes in the placement address and Termination of Jurisdiction (see separate policy, [9.10 Termination of Jurisdiction](#)).

For Indiana children, DCS will notify the school, the school corporation where the child currently attends, and the school corporation where the child has legal settlement **in writing within 72 hours** of the child's change in placement. See separate policy, [8.22 School Notifications and Legal Settlement](#) for additional information.

In accordance with the [Every Student Succeeds Act \(ESSA\)](#), DCS, Indiana Department of Education (DOE), and local education agencies must identify state and local [Point of Contacts \(POC\)](#) with whom to collaborate on determining the best educational interests of Indiana children in out-of-home care. DCS has appointed the Education Services Director as the agency's state ESSA POC and the Education Liaisons (EL) as the agency's local ESSA POC. See [Practice Guidance](#) for additional information.

PRACTICE GUIDANCE

Every Student Succeeds Act (ESSA) and Transportation for Students in Care

ESSA, as it pertains to foster children, was implemented December 10, 2016. ESSA requires local education agencies' POC and child welfare agencies' POC to collaborate on determining educational best interests for foster children when their home placement change causes the potential for their education placement to change. Foster children should remain in their [school of origin](#) unless there is justification, based on the needs of the child, to transfer to their new school of residence.

ESSA requires local education agencies' POC and child welfare agencies' POC to collaborate on providing transportation for foster children who attend their [school of origin](#) but have been placed outside of the district. The [school of origin](#) is required to provide transportation for a foster child removed from his or her home and placed outside of the [school of origin's](#) district when it is determined to be in the child's best interest to remain enrolled in the [school of origin](#). Best interest determinations, including a plan for transportation, between the local school POC and child welfare POCs are expected to be finalized within five (5) instructional days after receiving the request from the child welfare POC. In some situations, the collaboration process may take more time to deliberate.

DCS is responsible for arranging transportation until the best interest determination is completed. If resource parents are able and willing to provide transportation for the child, in collaboration with the school of origin, this is a suitable option to fulfill the school of origin's

obligations to ensure transportation is provided.

Local School Point of Contact List

A list of contact information for school corporations may be found in the [School Notification Point of Contact \(POC\) List](#). Best interest determinations need to be initially discussed between the FCM and the EL.

Educational Collaboration for Indiana Children Placed through a DCS ICPC

When an Indiana child involved with DCS is placed through an ICPC, the DCS local office is responsible for making contact with the DCS Education Services team, via DCS.Education@dcs.in.gov. The DCS Education Services Director will initiate collaboration between the other State's ESSA POC, which will help determine the educational best interests of the child.
