 $<sup>1. \</sup> The \ property \ tax \ cap \ is \ calculated \ separately \ for \ each \ class \ of \ property \ owned \ by \ the \ tax payer.$ 

<sup>2.</sup> Charges not subject to the property tax caps include property tax levies approved by voters through a referendum. When added to the base property tax cap amount for your property, this creates the effective tax cap. For more information, see the back of this document. Information regarding the referendums proposed during the most recent elections can be located online at: <a href="www.in.gov/dlgf/8789.htm">www.in.gov/dlgf/8789.htm</a>.

<sup>3.</sup> If any circumstances have changed that would make you ineligible for a deduction that you have been granted per Table 5 of this tax bill, you must notify the county auditor. If such a change in circumstances has occurred and you have not notified the county auditor, the deduction will be disallowed and you may be liable for taxes and penalties on the amount deducted.

Taxes 2020 Pay 2021 – The summary of calculations based on this year's tax rates.

Tax Relief Credits - Credits are determined annually and are used to reduce property tax liabilities applicable to properties in this table.

- Local Property Tax Credits Relief credit generated by the local income tax, which can be used to reduce property tax bills.
- Over 65 Circuit Breaker Credit Credit for a calendar year if homestead qualifies and age, adjusted gross income, homestead assessed value, and other eligibility requirements are met. The credit caps the increase of the homestead property tax liability of credit recipient at two percent (2%).

## **TABLE 2: PROPERTY TAX CAP INFORMATION**

**Property Tax Cap** – Property may not be taxed above caps prescribed by law, unless voters approve additional taxes. Those caps are 1% for homesteads, 2% for other residential property and farm land, and 3% for all other classes of property. When voters approve additional spending in a referendum, an **adjustment to the cap** is made to reflect the additional expense. This excess revenue is calculated as a separate value and added to the cap figure. This new value is considered your effective property tax cap or the **maximum that may be imposed under the cap.** Taxpayers should note that the circuit breaker cap amount is the combined cap amount for all classes of property applicable to a parcel.
