

Indiana Dental Health Directory for Adults with Disabilities **2022**

Developed and Designed by McMillen Health
Funded by Delta Dental Foundation and AWS Foundation

Welcome

The Indiana Dental Health Directory for Adults with Disabilities was created in 2022 in response to conversations with people with disabilities, their caregivers, and dental health professionals. McMillen Health, with funding from the AWS Foundation and the Delta Dental Foundation, created a list of dentists for you and the people you care about.

We understand that finding a dental home, making appointments, and going for dental care can be a lot of work. This directory is designed to make the process easier for you. We called dental offices throughout Indiana and asked about their services for patients with disabilities.

For each office listed in this directory, we let you know:

- What services they offer
- Who they serve
- If they take Medicaid
- Ways the office accommodates people with disabilities
- If they make minor accommodations

Minor accommodations could include:

- Allowing patient to use a tablet
- Dimming the lights
- Turning the music on or off
- Allowing patient to wear sunglasses
- Allowing patient to bring their own speaker and music
- Providing a weighted blanket or vest
- Providing a fidget toy during visit

If the office is limited in what they can do for patients with disabilities, we let you know that too. If you or the person you support have specific needs, it is always a good idea to call ahead to ask for what you need.

You can start by clicking below on the county where you live. If your county has no office listed, be sure to check out the counties near you.

If you need help looking for a dentist or need help paying for dental services, please go to our [Statewide Services](#) page for organizations who may be able to help.
