August 24, 2023

IDOA Procurement Team & Department of Natural Resources,

### Executive Summary

Emergency Radio Services, LLC dba as ERS Wireless is pleased to submit a bid response for the Wireless Tower Maintenance services for the Indiana Department of Natural Resources wireless networking systems located throughout the State for their parks facilities and the required wireless network connectivity. ERS Wireless has been the incumbent provider of these services for the tower and antenna systems for IDNR for many years and believe that our partnership has provided a seamless and efficient process for the DNR staff to maintain, repair and replace these system components as needed. We have many years of demonstrated success providing these and many other technology services to various IN State agencies.

ERS Wireless has maintained a very low bid response cost for this current submission to honor our long-standing partnership with IDNR. ERS Wireless has 8 office locations positioned strategically throughout IN and can respond to any service needs quickly and efficiently from these 8 locations. We have included timely response services to every DNR location listed throughout the state just as we have maintained all of those facilities in the past. ERS Wireless has a demonstrated history of success providing services to DNR for over 10+ years for their wireless tower and networking needs. We look forward to continuing our long-standing partnership with IDNR through the award of this QPA Services agreement. In addition to providing the wireless tower servicing needs, ERS Wireless is a top 5 nation-wide Motorola Solutions dealer servicing all of IN & KY.

The ERS Wireless authorized representative to submit and manage this ERS Wireless QPA agreement is as follows:
