*Job Titles and Contributing FTE*

- Populate the yellow-shaded cells; with all applicable job titles and the total FTE count.  
- Respondents may insert additional rows to account for all job titles attributing to the total FTE count.

Please keep in mind that the only FTE's that should be included in this count are Indiana employees working on this contract ONLY. If there are 10 employees working on this contract but they are splitting their time with numerous other contracts as well, then these employees cannot be counted as 1 FTE. Instead, these employees should be counted as a fraction of an FTE. For example: The project length of the contract is 48 months. There are 10 employees working on the contract over the 48 month contract period. 5 employees are working solely on the project for 48 months. 3 employees are working equal time on 2 projects for 48 months. 2 employees are working solely on the project for 12 months.

*The FTEs would be calculated as follows:*

*5 employees x 48 months (48 months working solely on this project) x 1 (time spent solely on this project) = 240 months / 48 months (length of contract) = 5 FTEs*

3 employees x 48 months x .5 (splitting time equally between 2 projects) = 72 months / 48 months = 1.5 FTEs

2 employees x 12 months (12 months dedicated solely to this project) x 1 (time spent solely on this project) = 24 months / 48 months = .5 FTEs

**Column Title Definitions:**

**Number of Employees** = Number of employees working on this State contract.

**Duration (In Months)** = Amount of time that the employee(s) will spend on the State contract.

**Time Spent (Percentage)** = Percentage of time the employee(s) will be working on the contract.
