Indianapolis, Indiana 46204

Summary of Changes

1. The following edits have been made to Section 2.3 of Attachment K, Scope of Work:

Deletions are indicated via strikethrough and additions have been made in red font.

a. 2.3 Current MCH Systems and Applications

At the highest level, the MCH Division leverages four internal systems and applications in its current environment. ~~The new MCH system will replace the existing systems and will continue to capture and exchange the data currently found in these systems. These systems will continue to provide data for the new MCH system.~~ There are currently approximately 26,000 internal and external system users.

2. The following edits have been made Section 6.4.1 of Attachment K, Scope of Work:

Deletions are indicated via strikethrough and additions have been made in red font.

a. 6.4.1 Data

~~It is anticipated that t~~The MCH system will interface with the Foster Care System to receive foster care placement data. ~~This requirement will be validated in a JAD session(s) with the Contractor.~~ This data will allow the MCH Division to locate an infant and communicate with caregivers to coordinate legally required screenings and follow-up care, if needed.
