

APPENDIX C

PROJECT LISTING

The STIP document has three separate project listings areas. Two are contract based and has only the lead DES number. The three sections are outline below. They are:

- All INDOT managed projects (rural and local) located outside of the Metropolitan Planning Area boundaries projects that is sorted by county. It includes Non-Bundled contracts where projects consist of various types of work within a contract that is related to the overall improvement that is being completed. (for example, Contract is a pavement preservation project with a number of bridges included within the road limits.)
- Bundled projects consisting of contracts with various types of work in the same of location (for example: Bridges/small structures/drainage etc, or the same types of work but in different locations or roads).
- Individual MPO TIP project listings with any amendments or modifications to be included.

* Total Cost of Project column is the total project costs that may begin prior to and/or extend beyond the four years of a STIP. This column is not fiscally constrained and is for information purposes.

The FY 2026 project listing of the STIP is the 5th year of the STIP and is presented for illustrative purposes only. Projects listed in 2026 are not part of the Fiscal Constraint of INDOT STIP.

The test for Fiscal Constraint covers only those projects listed in the FY 2022-2025 timeframe, the required 4-year of the STIP.

State and Local projects within the MPO's Planning Area have been extracted from the project listing and are included strictly by reference.
