Opinions

We have audited the Schedule of Employer Allocations of the Indiana Public Retirement System (System), Teachers' 1996 Defined Benefit Account (the TRF 1996 Plan) as of and for the years ended June 30, 2023 and 2022, and the related notes. We have also audited the total for all entities of the columns titled beginning net pension liability, ending net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total employer pension expense (specified column totals) included in the accompanying Schedule of Pension Amounts by Employer of the TRF 1996 Plan as of and for the year ended June 30, 2023, and the related notes.

In our opinion, the accompanying schedules referred to above present fairly, in all material respects, the employer allocations as of and for the years ended June 30, 2023 and 2022, and the beginning net pension liability, ending net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense for the total of all participating entities for the TRF 1996 Plan as of and for the year ended June 30, 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Schedules section of our report. We are required to be independent of the Indiana Public Retirement System, which includes the Teachers' 1996 Defined Benefit Account (the TRF 1996 Plan) and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Schedules

Our objectives are to obtain reasonable assurance about whether the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the schedule of employer allocations and the specified totals included in the schedule of pension amounts by employer, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the schedule of employer allocations and the specified totals included in the schedule of pension amounts by employer.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the TRF 1996 Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the schedule of employer allocations and the specified totals included in the schedule of pension amounts by employer.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the Indiana Public Retirement System (System), which includes the Teachers' 1996 Defined Benefit Account (the TRF 1996 Plan) as of and for the year ended June 30, 2023, and our report thereon, dated December 12, 2023, expressed an unmodified opinion on those financial statements.

Other Information

Management is responsible for the other information. The other information includes the Schedule of Additional Pension Amounts by Employer and the related notes, but does not include the Schedule of Employer Allocations and the Schedule of Pension Amounts by Employer (the Schedules) and our auditor's report thereon. Our opinions on the Schedules do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the Schedules, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the Schedules, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Restriction on Use

Our report is intended solely for the information and use of the System management, the Board of Trustees, and System employers and their auditors and is not intended to be, and should not be, used by anyone other than these specified parties.

Teachers' 1996 Defined Benefit Account

Notes to the Schedules of Employer Allocations and Pension Amounts by Employer Year Ended June 30, 2023

Note 1. Summary

The purpose of these schedules is to provide employers information for their financial statements as it relates to GASB Statement No. 68. As of the measurement date, the schedules provide each employer with their proportionate share of the collective net pension liability, collective deferred outflows and inflows of resources, and collective pension expense. The collective net pension liability as of the previous measurement date is provided as a beginning balance. Collective deferred outflows and inflows of resources, and collective pension expense include: each employer's proportionate share of plan level amounts such as differences between expected and actual experience, the net difference between projected and actual investment earnings on pension plan investments and changes in assumptions, plus amounts specifically related to the individual employer such as a change in proportion, differences between the employer's contributions and the employer's proportionate share of collective contributions, and employer service purchase credits. These schedules exclude employer wages, contributions, and expenses associated with INPRS staff members.

Note 2. Plan Description

The Teachers' 1996 Defined Benefit Account is a cost-sharing, multiple-employer defined benefit pension plan administered by INPRS. For additional details about this plan, refer to Note 1 in the Annual Comprehensive Financial Report (ACFR) available on the INPRS website.

Note 3. Special Funding Situation

This pension plan does not have a special funding situation.

Note 4. Basis of the Allocation

Wages reported by employers relative to the collective wages of the plan serve as the basis to determine the employer's proportionate share. This basis of allocation measures the proportionate relationship of an employer to all employers and is consistent with how contributions to the pension plan are determined.

Note 5. Collective Net Pension Liability

The components of the collective net pension liability at June 30, 2023 are as follows:

Total pension liability	\$ 8,832,826,874
Plan fiduciary net position	<u>7,746,475,590</u>
Net pension liability	<u><u>\$ 1,086,351,284</u></u>

Actuarial Assumptions

The collective total pension liability for the June 30, 2023 measurement date was determined by an actuarial valuation as of June 30, 2023 using member census data as of June 30, 2022. Standard actuarial roll-forward techniques were used to project the total pension liability computed as of June 30, 2022 to the June 30, 2023 measurement date. The valuation was performed using the assumptions in place at the time of the valuation as reported within the System's ACFR as of June 30, 2023.

For details, please refer to Note 8 of the System's June 30, 2023 ACFR, which can be found on the INPRS website at:

<https://www.in.gov/inprs/annualreports.htm>

There were no changes in actuarial assumptions for the June 30, 2023 actuarial valuation. An assumption study was concluded in February 2020 and an asset-liability study was concluded in May 2021. The resulting key actuarial assumptions are as follows:

- The investment return assumption is 6.25 percent.
- The price inflation assumption is 2.00 percent per year.
- Future salary increase rates are a service-based table ranging from 2.65 percent to 11.90 percent per year.
- The following COLAs, compounded annually, are assumed: 0.4 percent beginning on January 1, 2026, 0.5 percent beginning on January 1, 2034, and 0.6 percent beginning on January 1, 2039.
- The mortality tables are based upon the Pub-2010 family of tables, with specific adjustments for healthy employees, retirees, beneficiaries, and disabled members. Mortality tables are all projected generationally using SOA Scale MP-2019.

<https://www.in.gov/inprs/publications/actuarial-valuation-reports/>

The change in the collective net pension liability for fiscal year 2023 is calculated as set forth in the following table:

Net pension liability - beginning July 1, 2022	\$	658,451,824
Total pension expense		415,701,009
Change in deferred outflows of resources		187,523,213
Change in deferred inflows of resources		69,206,865
Defined benefit plan employer contributions*		<u>(244,531,627)</u>
Net pension liability - ending June 30, 2023	\$	<u>1,086,351,284</u>

* Does not include \$67,868 in employer contributions for INPRS members

Note 6. Amortization of Collective Deferred Outflows and Inflows of Resources

Annual changes to the net pension liability (asset) resulting from differences between expected and actual experience with regard to economic and demographic factors, and from changes of assumptions about future economic or demographic factors or other inputs are deferred and amortized over the average of the expected service lives of all plan participants.

The net differences between projected and actual earnings on pension plan investments are amortized over a 5-year period.

Deferred outflows of resources and deferred inflows of resources resulting from changes in an individual employer's proportion are amortized over the expected service lives of the plan participants.

For further information reference Table 18 Deferred Outflows of Resources and Table 19 Deferred Inflows of Resources in the TRF '96 DB Actuarial Valuation report located at:

<https://www.in.gov/inprs/actuarialvaluation.htm>

Average Expected Remaining Service Lives

The average expected remaining service life of the pension plan is determined by taking the calculated total future service years of the plan divided by the number of people in the plan, including retirees. The total future service years of the plan are determined using the mortality, termination, retirement, and disability assumptions associated with the plan. The average expected remaining service lives is used to amortize all deferred outflows and inflows of resources, except for the difference between expected and actual investment earnings, which is amortized over five years.
