Narratives

Disaster Damage:

The 2008 disasters in Indiana have been among the worst in our state's history. 82 of Indiana's 92 counties were declared as Presidential disaster areas between the three disaster periods (DR-1740, DR-1766 and DR-1795). DR-1766, the result of severe flooding in late May and early June, was clearly the most substantial with 44 counties declared as Presidential disaster areas. FEMA estimates that total IA and PA for this disaster will exceed \$350 million. FEMA and the SBA received 17,844 applications for IA during DR-1766, resulting in over \$127 million in assistance. The PA process is now in full swing with FEMA having 471 applicants from local and state government and an estimated 2,092 project worksheets. Currently 26 million dollars have been obligated to local governments, and PA total estimates exceed \$150 million. While the estimated FEMA assistance is substantial, it will not cover the estimated recovery needs in the areas of economic and workforce development, infrastructure, and housing. The following summarizes the key unmet needs in each of these areas: Economic and Workforce Development The largest economic impact to Indiana will be in the area of agriculture where early estimates indicate that crop losses will exceed \$300 million and land rehabilitation losses for activities like debris and sediment removal, levee repair and soil erosion repair will exceed \$200 million. Impact to other Indiana businesses is likely to exceed \$400 million with most of the damage occurring in the five most effected counties of Bartholomew, Johnson, Vigo, Morgan and Owen. The most substantial areas of damage occurred in Columbus, Indiana, where the Columbus Regional Hospital was completely immobilized and had over \$211 million in damages of which less than \$75 million will be covered by FEMA. Additionally, the city's largest employer reported damages in excess of \$200 million none of which qualified for assistance. Infrastructure Damage to Indiana's public infrastructure will likely exceed \$325 million and it is estimated that FEMA-PA will cover about half, or \$158 million of this expense. The remainder does not qualify, is covered by another Federal program, or represents the state/local match. The chart below depicts the financial assistance the State of Indiana has received. However, the costs that go beyond what is covered below have been identified as key areas of remaining need. FEMA-IA Applicants FEMA-IA Assistance (\$000) SBA Loans (\$000) FEMA-PA Assistance (\$000) Total Financial Assistance (\$000) June Flooding & Tornadoes DR-1766 17,840 54,241 71,711 158,502 284,454 About half of Indiana's PA expense comes from the extensive damages to Columbus Regional Hospital, a major hospital servicing a large portion of Southeastern Indiana. The hospital suffered over \$211 million in damage of which about half will qualify for FEMA-PA. One of the state's top priorities has been to help CRH recover from the catastrophic losses experienced in June of 2008, and a portion of PA-match funding would be for this effort. The remaining PA expenses result from damage to a mixture of public infrastructure such as damaged roads, bridges, dams and levees. Of note, Indiana's local FEMA-PA match will likely exceed \$40 million. Indiana will likely not achieve an automatic reduction in the FEMA match rate from 25% to 10% as our statewide per capita loss will be

Disaster Damage:

elow the \$122 threshold. However, our hardest hit counties have more than exceeded this threshold and thus this match will be a burden to them. The disaster CDBG funds will be key in helping reduce this local burden. Housing Indiana has over 17,000 families who suffered some type of damage to their dwelling. Housing is a key challenge for the state. FEMA-IA has provided substantial assistance; however, additional help will be required.

Recovery Needs:

The most urgent need is to insure that those communities wanting to participate in a buy-out program have the resources to do so. Over 550 homes totaling \$71MM could be purchased through the home buy-out program with local match exceeding \$17MM. Many communities have opted to participate in the home buy-out program offered by FEMA as most of these homes have been completely destroyed and are in floodplains. While this will clearly benefit the community long-term, two issues exist. First, the match requirement is burdensome and in many cases homeowners have been left in limbo while local communities wrestle with this issue. Some communities are currently deciding not to

include significantly damaged homes in the buy-out because they are concerned about funding their 25% match. Second, the state anticipates receiving only \$30 million from FEMA in HMGP funds. This estimate is based on FEMA's formula which determines the HMGP funds based on 15% of both IA and PA. This results in slightly more than a \$25 million shortfall. Indiana now has 14 local Long Term Recovery Committees (LTRCs) assessing the other unmet needs in counties declared during DR-1766. Early estimates indicate that those needs could exceed \$20 million. The vast majority of this need will be to ensure that communities have adequate affordable housing options. METHOD OF DISTRIBUTION All local units of government (cities, towns, counties) will be eligible for the Disaster Recovery program, including HUD Entitlements. Flood Plain Acquisition and Green Space Development IHEDA, in coordination with the Indiana Department of Homeland Security (IDHS), proposes to provide grants that allow cities, towns, and counties to acquire and demolish substantially damaged residential properties contained within a floodplain or floodway and to redevelop the area into permanent green space for community use. The voluntary program must be initiated by a local community and be agreed to by individual homeowners. In order to be considered for mitigation funds, communities must have a FEMA-approved multi-hazards mitigation plan. The Indiana Department of Homeland Security has provided grants to the 42 counties impacted by the floods to complete these plans. To expedite the overall process, FEMA has given approval for communities to apply for mitigation funds while they assemble their multi-hazards plans. Interested communities must submit a joint grant application to IDHS. Once a property is approved for purchase, the Federal Emergency Management Agency (FEMA) will cover 75 percent of the acquisition cost with the remaining 25 percent to be paid by the local unit of government, which can use CDBG funding to offset its match requirement. Priority will be given to communities with the greatest needs considering the concentration of affected individuals and financial need of each local unit of government. Specific criteria include: "X the community's match obligation as a percent of its annual budget; "X the median assessed value of the residential properties in the buy-out area; and "X the concentration of individual assistance applications in an impacted community. The Flood Plain Acquisition and Green Space Development Program has no maximum grant amount. Allocation: \$22,826,594 Emergency Rental Assistance From the beginning of the disaster, under the leadership of Governor Daniels, IHEDA took an active roll in ensuring that those victims of the flood

Recovery Needs:

rary housing for all displaced victims. For displaced flood victims that were ineligible to receive FEMA assistance, IHEDA committed to paying any necessary security deposit and three months rent. For all of those who were deemed eligible to receive FEMA assistance, IHEDA committed to paying any necessary security deposit. IHEDA paid \$823,405.85 in temporary rental assistance to property owners to ensure the immediate housing of those displaced by the floods. The State would request that a portion of the CDBG Disaster Recovery Funds be used to reimburse IHEDA for these up-front costs. Allocation: \$823,406 Public Infrastructure The CDBG Disaster Recovery Fund (DRF) will be available through the Indiana Office of Community and Rural Affairs. This fund will help offset the twenty-five percent (25%) FEMA match for various eligible public facilities activities pursuant to 24 CFR 570.201(c) and 24 CFR 507.201(f)(2). The Office of Community and Rural Affairs will give priority for activities that benefit at least 51% low-to-moderate income persons. Eligible DRF activities will include most activities eligible under FEMA Public Assistance V Category A, Category B (Permanent Restoration of Facilities), Category C, Category D (limited), Category E (buildings), Category F, Category G (limited). Eligible activities will be determined by OCRA on a project by project basis. Examples include: 1. Construction/rehabilitation of public wastewater systems; 2. Construction/rehabilitation of public drinking water systems; 3. Construction/rehabilitation of storm drainage systems; 4. Rehabilitation of public roadways, bridges and dams; 5. Construction/rehabilitation of public facility buildings. Projects/applications will be evaluated using the following criteria: 1. The importance of the project to post disaster recovery of the applicant; 2. The percentage of low-to-moderate income persons served; 3. The percentage of grant amount in relation to applicant's annual budget; 4. The relative economic distress of the applicant. Grant applications will be accepted and awards made until funding is no longer available. The intent of the program is to provide the non-federal share of necessary public improvements and/or rehabilitation related to the 2008 presidentially declared disaster. A minimum of fifty percent (50%) of grant funds will be awarded to projects that benefit at least 51% low-to-moderate income persons. Actual grant amounts are negotiated on a case by case basis and the amount of assistance will be dependent upon the factors described above. There is no maximum grant award for the Public Assistance Match Program. Allocation: \$40,000,000 Administration The State will set aside \$3,350,000 of its CDBG Disaster Recovery Funds for payment of costs associated with administering the Program (Docket No. FR-5250-N-01). This constitutes five percent (5%) of the State's CDBG Disaster Recovery allocation. These funds will be used by the Office of Community and Rural Affairs for expenses associated with administering its State CDBG Program, including direct personal services and fringe benefits of applicable Office of Community and Rural Affairs staff, as well as direct and indirect expenses incurred in the proper administration of the state's program and monitoring activities respective to CDBG grants awarded to units of local government (i.e. telephone, travel, services contractual, etc.).Allocation: \$3,350,000

Activity Description:

The Town of Prince's Lakes was adversely affected by the severe rain event that occurred May/June 2008 (FEMA 1766). On June 7, 2008 the dam overtopped with a wall of water that caused a significant amount of erosion and soil loss of the embankment. The project will consist of constructing a 125' wide x 11' high concrete labyrinth type spillway. This will include a concrete spillway chute, chute blocks and an impact basin followed by an earthen channel lined with riprap.

Location Description:

Rozell Drive in the town of Prince's Lakes in Johnson County Indiana

Activity Description:

Owen County will use grant funds to make spillway improvements to Lake Hollybrook. The project will remove and replace the existing concrete chute spillway in its entirety and include the addition of an energy dissipating basin. The project is necessary due to damages incurred during the severe weather of May-June 2008. This project is vital to the economic recovery of the area.

Location Description:

Lake Hollybrook, Owen County, IN

Activity Progress Narrative:

Construction is complete. Project was monitored on August 22, 2013 and is currently going through the close out process.

Activity Description:

The City of Greencastle was adversely affected by the disaster of 2008 and Albin Lake Dam was damaged as a result of the severe weather. Damage to the dam includes missing mortar and rock was dislodged resulting in the dam continuously leaking. The dam is classified as a high hazard dam. A major water line runs along the crest of the dam and failure of the dam would cause significant problems with water distribution and fire protection and is important to the continued recovery of this disaster affected community. The improvements to the dam include: replacement of the existing spillway, flattening of the dam slopes to improve stability, widening of the roadway that crosses the dam to meet minimum standards and a grass safety ledge for pedestrian access.

Location Description:

Albin Lake Dam in the City of Greencastle, IN in Putnam County.

Activity Progress Narrative:

Project is complete. Closeout documents have been submitted. Project monitoring is scheduled for the end of October.

Activity Description:

The City of Bloomington will use grant funds to make improvements to the Griffy Lake Dam. The project includes the construction of a new intake tower and a redundant sluice gate, drawdown conduit rehabilitation, dam piping, spillway improvements, replacement of inboard slope panels, erosion control, the replacement of safety fencing removed during construction as well as other activities described the application .

Location Description:

Griffy Lake
Bloomington, IN

Activity Progress Narrative:

The contractor has installed 80% of the slope walls on the water side of the dam, removed the old intake tower and completed 75% of the new intake tower and is patching and sealing the spillway.

Activity Description:

Jennings County will use grant funds to make dam improvements to the Country Squire Lakes Dam. The improvements will address seepage through the underlying geologic features on which the embankment structure is founded and the hydraulic capacity of the spillway. The project includes constructing a grout curtain along the centerline of the dam; installation of overtopping protection which will consist of a grout curtain constructed along the centerline; installation of overtopping projection which will consist of a large rock fill; extension of a primary spillway conduit; repairs to existing sluice gate, construction of an energy dissipation device, preparation of an operation and maintenance manual and an emergency action plan.

Location Description:

Country Squire Lake on Six Mile Creek in North Vernon, IN in Jennings County.

Activity Progress Narrative:

A contract is signed and the project is approximately 98% complete.

Activity Description:

The Peoga Lakes Dam does not meet Indiana Department of Natural Resources safety requirements. The water level of the lake has been lowered by 10&rsquo to relieve the pressure on the dam and reduce the risk of an uncontrolled breach which would result in loss of life and damage to property and infrastructure downstream. A semi-circular weir, a concrete chute with baffle blocks, rip-rap and a drawdown valve will be constructed to alleviate flooding and increase the efficacy of the dam. These improvements are necessary to protect the disaster affected community.

Location Description:

Johnson County, Peoga Lakes

Activity Progress Narrative:

Grantee is in non-compliance with reporting requirement. All draws have been suspended until compliance is achieved.

Activity Description:

Hulman Dam provides flood control measures for thousands of resident and businesses downstream. During the 2008 flood disaster event the dam sustained damage mainly to the primary spillway area where the velocity of the water rushing out caused erosion along this outlet area. Restoration and reshaping of the spillway outlet and adding an additional five feet to the top of the dam will be accomplished through this project. The additional height will provide greater protection from flooding during a PMP event.

Location Description:

City of Terre Haute Hulman Lake Dam, Vigo County, Indiana

Activity Progress Narrative:

Construction is underway and estimated to be approximately 80-85% complete. It is estimated substantial completion can be achieved by the end of November 2013.
