In 2005, the Indiana Office of Community and Rural Affairs was established as a separate state agency by the state legislature. The OCRA's Executive Director is appointed by the Lt. Governor, who also serves as the Secretary of Rural Development.

OCRA works with local, state and national partners to provide resources and technical assistance to aid communities in shaping and achieving their vision for community and economic development. A privilege of our agency is to award grants to fund public gathering places, fix water/sewer infrastructures, restore historic structures, build community facilities and revitalize commercial districts. These funds help communities improve their quality of life and ensure the health and safety of their citizens.

Roughly 40 percent of the state's population lives across 76 rural counties. These rural communities possess extraordinary natural beauty, alluring small towns, historic structures and quality natural resources that need to be preserved, enhanced and developed. While there are 76 rural counties, OCRA has impacted all 92 counties through its various programs.

IN INDIANA™

The Indiana Destination Development Corporation (IDDC) and the Indiana Office of Community and Rural Affairs (OCRA) often partner as agencies to highlight and celebrate exciting developments happening across the state, particularly in our rural communities. IDDC was formed by the Indiana Legislature in 2019 to promote Indiana as a great place for living, visiting, learning and earning. The IDDC became incorporated on July 1, 2020. The Indiana Office of Tourism Development evolved into the new organization, creating a seamless experience for our tourism and talent attraction partners. Increasing the knowledge that builds pride in Indiana will help our state fill open jobs, grow talent and elevate views of our distinctive sense of place.
