

Recently, your company partnered with Oakland City University to offer its employees a discount on tuition for the approved online programs. OCU knows that an educated workforce will help benefit the community, so they are offering a \$1,000 discount that you can use to advance your career and continue your education.

So, what does it mean for you?

You can earn your Bachelor's or Master's degree at OCU online for a discounted rate! There is no application fee, so you've got nothing to lose by applying. Take a few minutes and find the right program for you.

Degrees available online:
