

Office of the Indiana
Treasurer of State

Annual Report
Fiscal Year 2021
July 1, 2020—June 30, 2021

October 15, 2021

The Honorable Eric Holcomb
State of Indiana
Indiana Statehouse, Suite 206
Indianapolis, Indiana 46204

Dear Governor Holcomb:

In accordance with Indiana Code § 4-8.1-2-14, I hereby submit the Annual Report of the Office of the Treasurer for the State of Indiana.

The following information is a summary of the business transactions for Indiana's General Fund and all other funds managed by this office for the Fiscal Year of July 1, 2020, to June 30, 2021.

Sincerely,

A handwritten signature in black ink that reads "Kelly M. Mitchell". The signature is written in a cursive style with a large, looped "K" and "M".

Kelly M. Mitchell

Dear Fellow Hoosiers:

It is my honor to present the State Treasurer's Office Fiscal Year 2021 Annual Report to the citizens of Indiana. The primary responsibility of the Treasurer of State is the safekeeping and investment of monies paid into the state treasury. By meeting this responsibility and many others given to my office via statute, the Treasurer of State's Office serves the citizens of the State of Indiana, as well as state agencies, and local units of government.

We continue to weather the storms presented by COVID-19. Due to sound fiscal practices, careful oversight, and the team's experience, our office collected investment income of just over seventy-one (71) million dollars during this last fiscal year. This was a decrease from FY20 investment income, but expected due to the pandemic.

In addition, the most recent fiscal year was measurably successful for the bodies corporate and politic my office oversees: Indiana Bond Bank (IBB), Indiana Education Savings Authority (IESA), Indiana Statewide 911 Board (Statewide 911), the Indiana Board for Depositories (BFD), and the Indiana ABLE Authority (INvestABLE).

The state's INvestABLE plan saw continued growth. FY21 ended 974 total accounts with \$7,544,804.47 in total assets under management – increases of 48% and 89% respectively from the previous year's total. INvestABLE Indiana offers seven investment options, including a checking account option with a debit card.

In FY21, IBB issued \$218,104,632 in short-term and long-term debt on behalf of 69 local governmental entities. IBB programs provided significant interest savings for Indiana's units of local government that benefit these communities for years to come. In May 2021, IBB reimbursed 29 school corporations \$348,175 in interest paid on tax anticipation warrants issued through IBB during the heart of COVID-19.

2021 marked another year of significant growth and enhancement of Indiana's tax-advantaged CollegeChoice 529 Savings Plans. CollegeChoice 529 again saw strong contribution activity and steady investment returns, resulting in Plan assets of over \$6.5 billion in more than 404,000 accounts – an increase of \$1.2 billion over the previous fiscal year.

Statewide 911 continues the buildout of a dual ESInet in cooperation with INdigital telecom and AT&T and a buildout of a comprehensive data analytics system statewide with ECaTS to continue advancements in public safety. Statewide 911 continues to promote statewide 'Text to 911' services with various means of social media at high profile events and across Hoosier campuses and universities.

Indiana's local government investment pool, TrustINDiana, continues to be a safe and attractive investment option for local units of government. TrustINDiana ended the fiscal year with over \$2.09 billion in assets and has seen an increase of over \$227 million in asset growth from the end of FY20.

Finally, in the spring of 2021, the state legislature created the Indiana Education Scholarship Account Program (INESA). Administered by the Treasurer, INESA is charged with establishing scholarship accounts to provide grants to parents of eligible students to use with participating entities for qualified educational expenses related to their K-12 educations. INESA will launch for the 2022-23 school year and I look forward to providing a more in-depth analysis of the program in next year's Annual Report.

Respectfully,

Kelly M. Mitchell
Indiana Treasurer of State

History of the Indiana Treasurer of State's Office

The Treasurer of State's Office was created by the first state constitution in 1816. David Crosby Lane became the first State Treasurer in November 1816 in Corydon, IN, the state's first capitol. The state capitol was later moved to Indianapolis, and in 1888 Julius A. Lemke was the first State Treasurer to occupy offices in the current Statehouse. In 1970, the Treasurer's term was extended from two years to four years, with no person eligible to serve more than eight years, (two successive terms), in any twelve year period.

When created in 1816, the Treasurer of State's Office was responsible for collecting all public revenue through the county treasurers. The Treasurer was to keep correct and separate account of all monies received and paid out by the State of Indiana. In 1933, the Indiana Department of Revenue was created and designated as the agency responsible for the collecting of all state taxes.

Since 1933, the primary responsibility of the Treasurer of State's Office has been the investing and safekeeping of all state monies. Today, the Treasurer of State's Office manages an investment portfolio of over \$8 billion comprised of receipts from Indiana's General Fund and over 70 trust funds.

The Treasurer has day-to-day authority over the operations of the following boards and quasi-governmental entities: Chair of the Indiana Bond Bank, Chair of the Indiana Education Savings Authority, Chair of the Indiana Statewide 9-1-1 Board, Chair of the Achieving a Better Life Experience Authority, Sole Trustee of the Indiana State Police Pension Fund, and the Secretary/Investment Manager of the Indiana Board for Depositories. In addition, the Treasurer serves as Vice Chair of the Indiana Housing and Community Development Authority, Vice Chair of the Indiana Board of Finance and Vice Chair of the Indiana Finance Authority and a member of the following boards and commissions: Indiana Deferred Compensation Committee, Grain Indemnity Corporation, Underground Storage Tank Financial Assurance Board, Enterprise Resource Planning Governance Committee, Next Level Indiana Trust Fund, and the Indiana Public Retirement System. Finally, the Treasurer serves as the administrator for TrustINdiana, the state's local government investment pool.

Indiana Board for Depositories

Public Deposit Insurance Fund

The Public Deposit Insurance Fund (PDIF) was created in 1937 to insure the deposits of public monies in Indiana's banks, similar to the way the FDIC insures individual depositors' accounts. PDIF funds are managed and invested by Treasurer Kelly M. Mitchell in her capacity as the Secretary-Investment Manager for the Indiana Board for Depositories (BFD). The State Treasurer staffs, administers, manages, and directs the affairs and activities of the BFD in accordance with the policies set out by the BFD.

The purpose of the BFD is to ensure the safekeeping and prompt payment of all public funds deposited in any approved depository through the prudent management of the PDIF. For those institutions deemed a higher risk of possible failure, the BFD requires and manages the pledge and/or delivery of collateral to further protect public funds. The BFD is separate from the state in its corporate and sovereign capacity.

The PDIF is funded by assessments payable depositories that hold public funds. The BFD may waive this assessment if, in its discretion, it determines the assets of the fund are equal to the reserve for losses. The BFD has waived this assessment since 1985. The BFD has the authority to invest, reinvest, and exchange investments of the PDIF in excess of the cash balance in certain securities set out in the Indiana Code 5-13-12.

As of June 30, 2021, there are 144 financial institutions that have been designated as approved depositories in Indiana and able to accept public fund deposits. At the end of Fiscal Year 2021, the total assets of the PDIF totaled approximately \$318.7MM.

Indiana Bond Bank

In Fiscal Year 2021, the Indiana Bond Bank (IBB) issued \$218,104,632 in short-term and long-term debt on behalf of 69 local governmental entities.

Created by the Indiana General Assembly in 1984, the IBB services local units of government with their short-term and long-term financing needs. The primary purpose of the IBB is to assist local government entities through the process of debt issuance by operating as a financing conduit. The IBB purchases the bonds and warrants of various communities, and in turn, issues its own obligations in the financial markets. The conduit process allows local communities to take advantage of economies of scale by obtaining lower costs of borrowing, thereby saving taxpayer dollars.

The IBB is governed by a Board of Directors, and the Treasurer of State serves as the Chair of the Board. The remaining members consist of the Director of the Indiana Finance Authority and five members appointed by the Governor.

Through the 2021 Advance Funding Program, the IBB provided cash-flow assistance to 62 taxing districts by purchasing more than \$185,500,000 in tax anticipation warrants. The consistently active participation in the program is due in part to competitive interest rates, standardized documentation, cash-flow projection assistance, and arbitrage rebate assistance. True to the successful history of the program, entities received a competitive all-inclusive rate of 0.63%.

The Hoosier Equipment Lease Purchase (HELP) Program allows local communities to acquire equipment at cash prices and utilize tax-exempt interest rates. In 2021, 60 communities were assisted through the HELP Program, totaling \$37,562,097. Items financed included school buses, computers, police vehicles, computer technology, ambulances, and other essentials. Lease terms ranged from three to seven years.

The Interim Loan Program is a partnership with the U.S. Department of Agriculture - Rural Development (USDA-RD). After an entity receives a letter of commitment from USDA-RD, the proceeds of this program become available to the entity to cover the project costs from the construction through project completion. In 2021, the IBB provided \$9,457,655 in interim financing to 5 local units of government.

Indiana Education Savings Authority

Created by the Indiana General Assembly to develop programs that encourage saving for higher education, the Indiana Education Savings Authority (IESA) is chaired by the Treasurer of State and administers the CollegeChoice 529 Savings Plans (Plans).

Launched in 1997 as a convenient, tax-advantaged way to invest for students' qualified higher education expenses, the Plans totaled over \$6.5 billion in assets in more than 404,000 participant accounts at the conclusion of Fiscal Year 2021.

Since 2007, Hoosier taxpayers have also benefited from an annual state income tax credit of 20% of their contributions, worth up to \$1,000 (\$500 for those married filing separately) and available to both account owners and third-party contributors.

The IESA is proud to offer a diverse investment lineup that includes automatic, year of enrollment portfolios and individual options in both the Direct and Advisor Plans. The Direct Plan's low minimum contribution of \$10 ensures the program is accessible to all income ranges, and the tax credit remains a powerful incentive for enrollment and recurring investment.

The CollegeChoice CD Plan serves a select niche of the market interested in conservative, FDIC-insured certificates of deposit and savings accounts. Assets in these products was nearly \$20 million by the end of Fiscal Year 2021, with yields among the highest in the 529 industry for products with a \$25 minimum.

The IESA continues to grow awareness and participation with Webinar Wednesdays. The webinars include a live presentation followed by participant Q&A. The webinars were initiated during Covid to offer Hoosiers a virtual way to learn about the Plan. They proved popular for both potential and current account owners, and have become a staple part of agency outreach.

The IESA also continued support of the Promise Indiana matching account program through the Indiana Youth Institute. The initiative aims to increase college-going and savings behaviors in communities around the state and create a pathway for all children, regardless of socioeconomic status, to attain education beyond high school.

Lastly, Ascensus Government Savings, the program manager for the Direct and Advisor Plans, launched the READYSAVE 529 App in Indiana on March 31, 2021. The app was positively received by Direct Plan participants and garnered more than 5,000 downloads in the first month. The IESA is proud to offer this Plan enhancement to savers.

Indiana Statewide 911 Board

The Statewide 911 Board’s mission is to promote the technological advancement of the statewide 911 system to ensure immediate and safe access to emergency services in the time of need from any device and any caller, and to collect 911 fees from communication service providers doing business in Indiana. Utilizing these fees, the board oversees the operation of a statewide public safety ESInet and distributes funding to all 92 counties for the operations of their Public Safety Answering Points (PSAPs).

Moreover, the board continues the buildout of a dual ESInet Next Generation 911 Network in cooperation with INdigital telecom and AT&T and a buildout of a comprehensive data analytics system statewide with ECATS to continue the advancement in public safety.

Established in January 2018, the board’s training program continues to thrive as more counties take advantage of training funds. From its inception through August 2021, the board has financed more than 8,789 courses and recertifications saving the counties more than \$2,097,354 in training costs.

Indiana ABLÉ Authority

Created by the Indiana General Assembly to develop a program that allows individuals with disabilities to save for qualified expenses, the Achieving a Better Life Experience (ABLE) Authority is chaired by the State Treasurer and administers the INvestABLE Indiana savings plan.

As of June 30, 2021, there were 974 total accounts with \$7,554,804.47 in total assets under management.

INvestABLE Indiana offers seven investment options, including a checking account option with a debit card. Up to \$15,000 per year can be saved in an account, with a maximum account balance of \$450,000. For an individual receiving Supplemental Security Income (SSI), they can save up to \$100,000 in their INvestABLE Indiana account and not risk losing their monthly benefit. Money can be withdrawn and spent on qualified expenses or INvestABLE Indiana account holders can choose to grow their finances and create long-term savings with tax-free earnings. Contributions and earnings in INvestABLE Indiana accounts are not subject to federal or state income tax if spent on qualified expenses, similar to a 529 college savings account. Contributions are made with post-tax dollars.

To qualify for an ABLÉ account, the account owner must have the onset of disability or blindness before the age of 26 and qualify for Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI). If they do not qualify for either of those Social Security benefits, but still meet the age of onset disability requirement, they must have a physician's written diagnosis of significant functional impairment that has lasted, or is expected to last at least one year, or result in the individual's death.
